EDUCATION

2020 - present
SVU

- Master's of Web Science and Technology

2013 - 2018
AL BA'ATH UNIVERSITY

- Bachelor of IT Engineer
- GPA: 3.8 / 4.0

SKILLS

- Coding
- Mobile Applications
- Microservices architecture
- Time Management
- Web Applications
- Effective Communication
- Critical Thinking
- Cross-platform development

LANGUAGES

- English (Fluent)
- German (Basics)
- Arabic (Native)

PROFILE

Information Technology Engineer and Software Developer with nine years of experience. Passionate about programming, with strong expertise in algorithms, data structures, and full-stack development. Skilled in testing, Rapid Application Development (RAD), and Object-Oriented Analysis and Design (OOAD), with a proven track record of engineering customized solutions that enhance business processes, operations, and profitability.

WORK EXPERIENCE

- Top Spots FZE** 2023-PRESENT
Full Stack Developer
 - Enhanced user experience by designing and implementing responsive web layouts, improving site speed by 65%.
 - Conducted debugging and troubleshooting to ensure smooth application performance.
 - Integrated third-party APIs, including N-Genius payments, Google Maps, Firebase, and Dubai's Park API.
- ShoofBook LLC** 2020 - 2022
Lead Full Stack Engineer
 - Led full lifecycle development from concept to launch, overseeing all phases including planning, design, implementation, testing, and deployment.
 - Architected a scalable platform capable of handling high volumes of real-time, user-generated content.
 - Developed real-time data handling features to support live updates.
- TechnoWave FZ** 2018 - 2020
Full Stack Developer
 - Developed dynamic and responsive front-end applications using Angular, enhancing user interface functionality and performance.
 - Engineered robust back-end systems utilizing Java Spring and ExpressJS, ensuring scalability, security, and efficient data handling.
 - Managed databases, optimizing data storage and retrieval solutions.
- Al Andalus University for Medical Sciences** 2017 - 2018
Full Stack Engineer
 - Led and mentored a team of junior developers, providing guidance to enhance their technical skills and project outcomes.
 - Taught web programming courses.
 - Managed the university's servers and systems, ensuring optimal performance and security.
